As you may know the plant took on heavy damage oh, he's thinking it's going to take about five or six weeks to rebuild the room in the control panel and everything else. If we're trying to make Savemart a priority to get reopened we need to get him passes so we can get up there. Who can do that?

Health Officer Issued Hazard Advisory Warning Against Habitation of Destroyed Property

The Butte County Health Officer has issued a hazard advisory strongly suggesting no habitation of destroyed property until property is declared clear of hazardous waste and structural ash and debris by Butte County Environmental Health. There is evidence from recent fires in California that homes and property destroyed by fire contain high and concerning levels of heavy metals, lead, mercury, dioxin, arsenic, and other carcinogens. Some property may have the presence of radioactive materials. Exposure to hazardous substances may lead to acute and chronic health effects, and may cause long-term public health and environmental impacts. I think we should definitely not allow trailers on burned property. Living in trailer next to their home that isn't burned should probably be ok. My home isn't burned so conceivably I could allow a friend to live in a trailer for a limited time....1 or 2 years with proper hookup and permits....still working out the details

12/8/2018 9:28:40 AM

From: Eric Reinbold <eric@jic.com>, Marc Mattox <mmattox@jic.com>

This is what we briefly discussed last week. But we have to make allowances for various situations. Example: I have 6 acres and a 300 foot clearing south of my house where I would be nowhere near the burn site of my house.

Most lots in paradise are much smaller but if we just say "No" that will not be accepted by the citizens

Thank you for hearing me out. This is much more than answering phones which we can discuss at a future date. This is not tail wagging dog. This is that we need people who can function at high levels in places that are useful to us. Ursula is one of those people and is important to the long term future of the town. We cannot let her walk without trying. We need her in the JIC. We can get Dina coverage elsewhere to answer phones via Craig. Please reconsider. 30 days. If she's still not happy then she goes but at least we get the benefit of her skills in that time. If we do nothing she goes tomorrow and we won't have anyone in the JIC OR answering phones. Once we get back to TH this will get better and be more connected with the new normal of our government. Thanks for reading and I'll call you sometime after 2 but before 3

Good evening Lauren, I've been in touch with public works and the town has been mostly quiet during these storms so far. I'm aware of one tree that fell along a roadway which was handled promptly.

As far as tomorrow : has a dental procedure which requires her to be dropped off, picked up and possibly monitored. I'll be available by phone during this time and will be working on my presentation to the council on Tuesday night.

I hope you've had a nice weekend and I'll give you a call to check in tomorrow morning. Thanks!

1/8/2019 9:10:45 PM

From: Marc Mattox

The exemption to the 100 foot in the County is only in rare cases if the parcel just can't accommodate it any other way. Likely because of utility hookups.

1/8/2019 9:10:56 PM

From: Marc Mattox

It's 1 acre

1/8/2019 9:11:19 PM

From: Marc Mattox

And then if for some reason they just can't be hooked up 100 ft is the minimum buffer

1/8/2019 9:11:26 PM

From: Marc Mattox

Not that 100 feet is safe

Lauren/Mark, it's Eric Lamoureux. Regarding tomorrow, wanted to find out if it is possible to have our 11 am mtg in Paradise somewhere. Perhaps your town hall? Reason is, Gallagher will be doing a noon press conference in paradise with the Mayor, so in order to do our 11 am mtg and make the noon press conference, I thought we should do our mtg up there as well. Please let me know. Also, we were hoping to do lunch in paradise but I didn't know if any food establishments are back open. Are there any?
